

K-LOVE provides me with uplifting music and keeps me focused on the possitive things in life.

If K-LOVE were to be replaced by other programming it would have a negative affect on our community. It provides people with a music station that is family oriented.

K-LOVE is in the public interest because it is one of the few radio/TV stations that doesn't have foul language, off color jokes or any sexual talk. As a mother with a young child, I appreciate that and never have to worry about what my son is hearing. Other families need to have a wholesome choice also. If people want to hear watch or hear crude talk, it is easy to find stations with that kind of programming. Please don't replace K-LOVE's signal so that as families we can make the choice on the type of music and "radio talk" that we listen to.
